Technical Skills

HTML	NodeJS	Mongoose	Git/Github	Photoshop
CSS/SASS	MongoDB	Express	Postman	Adobe XD
ReactJS	SQL	jQuery	Agile	Sketch

Profile

Web developer in training with an eye for design and heart for functionality. I am extremely self-sufficient in the workplace but also thrive in teams and pride myself in being a creative problem solver. Currently enrolled in the Red Ventures based non-profit, Road to Hire, learning both the technical and professional development skills necessary to excel as a software developer.

Experience

APPRENTICE, ROAD TO HIRE; FORT MILL, SC – 2018-PRESENT

- Built and designed a single page application in Adobe XD that utilized the combination of HTML, SCSS/BEM, and ReactJS
- Built an API with NodeJS that was hosted on a local MongoDB database
- Developed soft skills through weekly Toastmasters meetings
- Recreated Sketch files in ReactJS and SCSS/BEM to practice fidelity to design

LOGISTICS ASSOCIATE, NORDSTROM; DURHAM, NC – 2016-2017

- Utilized inventory management systems to scan, process and research cartons in accordance with inventory control processes
- Prepped merchandise for store and customer shipments, and provided general assistance to the store as a whole

Education

Sogang University – Korean Language, 2017 to present
